DETAILED ACTION

1. Receipt is acknowledged of the Preliminary Amendment filed March 24, 2005.

Continuing Data

2. This application is a Continuation in Part of application 10/411,971 filed April 11, 2003, which is a Continuation of Patent 6,575,361 filed August 18, 2000, which claims benefit to August 19, 1999. Additionally, this application is a Continuation in Part of application 10/253,243 filed September 24, 2001 and claims benefit to July 15, 2002.
3. This application is in condition for allowance except for the following matters:

5. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS ACTION IS SET TO EXPIRE **TWO MONTHS** FROM THE DATE OF THIS LETTER.

Allowable Subject Matter

6. Claims 1-20, 23, 24, 26, and 32-39 are allowable over prior art. Claims 21, 22, 25, and 27-31 would be allowable upon the correction of the objections to claims 21, 25, and 27.

7. The following is an examiner's statement of reasons for allowance: The best prior art of record, taken alone or in combination, fails to specifically teach or fairly suggest the method, computer program, or system for reconciling billing information as disclosed in the current invention. Although prior art has teachings of confirming communications between a remote station and a central processor, the prior art of record taken alone or in combination with any other prior art fails to teach each of the specific limitations of the claimed invention. More specifically, prior art fails to teach a method, computer program, and system including a central processor receiving a request from a remote station to process a current transaction, wherein the request is coupled with a prior transaction identifier corresponding to a prior transaction. The method further includes the step of determining, in response to receiving the prior art identifier, whether the prior transaction is identical to a first transaction based on the prior transaction identifier. Lastly the method includes amending the first transaction record to indicate that the first transaction is a questionable transaction if the prior transaction is determined to be different from the first transaction. The above disclosed limitation are not taught in prior art and moreover, one of ordinary skill in the art would not have been motivated to come to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Walker et al (2004/0039639), Sehr (2002/0100803), Cook et al (6,675,153), Talati et al (5,903,878), Riddett (2005/0071268), and Mann et al (6,119,096).
